

Get more time back for things that matter.

IBM watsonx Orchestrate brings AI to every employee

[Watch the demo](#)

The modern workplace presents businesses with a unique challenge. On average, employees juggle 13 different applications per day. At the same time the volume of data stored is set to increase by 300% by 2025, while demand for skilled workers will outstrip supply resulting in a global talent shortage.

Companies need to reimagine the way they work by embracing digital solutions, leveraging AI and automation to improve productivity and deliver new experiences for their employees.

IBM watsonx Orchestrate, powered by LLMs, provides an easy-to-use conversational AI-driven experience, helping companies save time, eliminating tedious work and accelerating productivity.

Over the past few years, employee experience (EX) has moved from the back burner to a frontline priority. With the labor and skills shortage emerging as a top threat to sales and retention issues, leaders are turning to EX initiatives and new technology to fight attrition, attract talent, bolster productivity, and protect the bottom line.
